COMMENTS OF THE  
STATE AUDITOR-GENERAL  
ON THE  
AUDITED ACCOUNTS  
OF  
LAGOS STATE GOVERNMENT  
FOR THE FINANCIAL YEAR ENDED  
31<sup>ST</sup> DECEMBER, 2022

## **1.00 INTRODUCTION**

The Accounts of Lagos State Government for the financial year ended 31<sup>st</sup> December, 2022 have been examined under my direction in accordance with Section 125 of the 1999 Constitution of the Federal Republic of Nigeria and Sections 25 and 26 of the Lagos State Audit Law, 2015.

The Office of the State Auditor-General, in line with its constitutional mandates, provides opinion on whether the Financial Statements of the State Government are presented fairly and completely.

The Financial Statements audit provides a veritable avenue to add value to the system through pertinent recommendations on ways to enhance the quality of financial controls and reporting; and Accounting and Management Control Systems of the State Government, with a view to improve the judicious utilization of its resources for public good.

Thus, this report reflects observations and recommendations as a result of the financial audit and detailed analysis of the financial information presented to this Office by the State Accountant-General.

## **1.10 CONSIDERATION OF YEAR 2021 AUDITED FINANCIAL REPORT**

The audited accounts of the State Government for the Year ended 31<sup>st</sup> December, 2021 was submitted to the Lagos State House of Assembly on 10<sup>th</sup> May, 2022 and had been considered by the Public Accounts Committee of the State House of Assembly; however, the final report of the Committee thereon, as required by Section 33(1)(c) of the Lagos State Audit Law, 2015, is still being awaited.

## **1.20 FINANCIAL REPORTING STANDARDS**

The Financial Statements for the financial year ended, 31<sup>st</sup> December, 2022 was prepared with the standard templates for General Purpose Financial Statements [GPFS] in line with the International Public Sector Accounting Standards [IPSAS] Accrual Based Accounting and its attendant reporting features.

## **1.30 AUDIT APPROACH**

Audit adopts a risk-based approach and examinations, on a test basis, of the evidence presented to support the balances, assertions, and disclosures in the Financial Statements prepared by the State Accountant-General. It also involves an assessment of the significant estimates and judgements contained in the Financial Statements as to whether they are derived from the accounting policies modelled after IPSAS and Lagos State Public Finance Management Law, 2011.

The audit was conducted in accordance with International Standards on Auditing which requires that I must comply with ethical requirements, plan and perform the audit to obtain reasonable assurance that the Financial Statements are free from material misstatements. As a result, I have obtained the necessary information and explanations that to the best of my knowledge and belief, are necessary for the purpose of the audit; as such, it is my belief that the audit evidence obtained is sufficient and appropriate to provide a reasonable basis for my opinion.

## **2.00 IPSAS IMPLEMENTATION IN LAGOS STATE**

The Lagos State Government has adopted the accrual basis of International Public Sector Accounting Standards (IPSAS) and as a result, the Financial Statements have been prepared in accordance with the accrual basis of IPSAS. The implementation of Accrual Basis of IPSAS Accounting in Lagos State commenced on 1<sup>st</sup> January, 2016 and therefore the current Year 2022 Audited Financial Statements is the Seventh in the series. The IPSAS standards require a full consolidation [aggregation] of all Government Ministries, Departments, Agencies [MDAs] and Parastatal Organizations; however, the consolidation of the Subsidiaries, Associates and Joint Ventures of the State Government has not yet occurred and as such, the figures contained in these Financial Statements presented by the Accountant-General were yet to fully reflect all the activities of the State Government.

Therefore, in order for the State Government to have a holistic view of its financial performance and position; there is the need for consolidation of all accounts, which would provide the information and window to allow for adequate assessments thereof.

As at date, the under-listed classes of Assets have been recognized, measured and reported in the Year 2022 Accrual IPSAS Based LASG Financial Statements:

- Infrastructural Assets
- Land and Buildings
- Plant and Machinery
- Furniture and Fittings
- Motor Vehicles
- Medical and Laboratory Equipment
- Computer and Office Equipment
- Library Books
- Specialized Equipment [such as Fire Fighting Equipment, Oxygen Tank, Survey & Precision Equipment, Waste Disposal Trucks etc.]
- Parks and Gardens; and
- Lease Assets.
- Tourism [Stadia];
- Agricultural Lands and
- Intangible Assets [Information, Communication and Technology].

However, the under-listed other classes of valuable assets of LASG were yet to be recognized, measured and eventually brought into the State's Financial Statements, namely:-

- Investment Property, Heritage Assets, Biological Assets, Water Resources Infrastructure and Concession Assets [where applicable].

It is necessary to state that the following items were also observably not recognized in the Year 2022 Financial Statements:

- Full consolidation of Subsidiaries, Associates and Joint Ventures of the State;
- Related parties' disclosures.

#### **2.01 Re-statement of Lease Assets Prior Year Financials**

It is also necessary to state that some of the values brought forward from prior Year [Year 2021 comparative figures] relating to Lease Assets have been re-stated in the Year

2022 Financial Statements in order to correct observed omissions in accordance with the requirements of IPSAS 3. The resultant effect of the re-statement on the relevant aspects of the Financial Statements.; i.e. Statement of Financial Performance [Public Debt Charges, Depreciation, and Subvention to Parastatals]; and Statement of Financial Position [Property, Plant and Equipment, Lease Obligations, and Future Finance Charges] have been ascertained.

### **3.00 SFTAS GUIDELINES AND EFFECT ON THE STATE AUDITED FINANCIAL STATEMENTS**

The State's Fiscal Transparency, Accountability and Sustainability [SFTAS] initiative is a World Bank assisted Programme of the Nigeria Governors' Forum with the aim to promote Transparency, Accountability and Sustainability in Public Governance. The Year 2022 Financial Statements followed the SFTAS directive which stipulates the need to have specific disclosures [by way of Notes to the Accounts] on the Recurrent Expenditure [Personnel Cost and Overhead Cost] of Four [4] key Ministries and Agencies in the State namely Ministry of Finance, State Treasury Office, Ministry of Economic Planning and Budget and Lagos State Internal Revenue Service; and requirement of the Auditor-General to give specific Audit Opinion on the transactions of the above-named Four [4] Ministries and Agencies.

In compliance thereof with the SFTAS Requirements, Pages 10 and 47 of this Report convey the Audit Opinion and Note Disclosure in respect of the affected Four [4] Ministries and Agencies.

### **4.00 FINANCIAL STATEMENTS OF MINISTRIES, DEPARTMENTS AND AGENCIES [MDAs]**

Further to the audit comment in our previous reports, Audit still reiterates that the timeline set by the Lagos State Public Finance Management Law, 2011 for the submission of Financial Statements to the State Auditor-General by the Ministries, Departments and Agencies [MDAs]; and Parastatal Organizations of Government coincides with that set for the State Treasury Office [STO] as well. It is therefore necessary to re-visit the Statute and revise the timeline for submission of Financial Statements by the MDAs to precede the date of submission by STO as required by Statutes; in order for the information therein to serve as valid corroborative evidence

for both STO and Audit and to engender full aggregation and consolidation of the accounts of all public entities in the State.

Meanwhile, the Audit Inspection on the Ministries, Departments and Agencies [MDAs] and Periodic Check on the Parastatal Organizations of the State for Year 2022 is still on going. The full reports in respect thereof which will be based on the distinct Nine [9] Sectorial Classifications of Functions of Government [COFOG] will be contained in other volumes of the Auditor-General's Statutory Report for Year 2022.

#### **5.00 CONCLUSION**

Further to our previous audit and current review of the Oracle Enterprise Resource Planning [ERP] suite [platform from where the Financial Statements were generated] showed that not all the Oracle Financial Modules procured by the State Government were fully deployed and functional. Audit opines the need for the Oracle ERP to be upgraded to its current version; meanwhile, the requisite controls and other relevant functionalities [among which is the period close functionality] built into the existing Oracle System for effective financial reporting should be strictly enabled and enforced; while the full optimization and upgrading of the Oracle Applications need to be pursued vigorously.

**The Responsibilities of the Accountant General**

---

The Financial Statements have been prepared in accordance with the provision of the Finance (Control and Management) Act 1958 Cap 144 LFN and PFM Law 2011 as amended.

These financial statements are in line with the Generally Accepted Accounting Principles and Practice and other Government accounting regulations and pronouncements.

The Accountant General of the state is responsible for:

- a) establishing and maintaining an adequate system of internal controls to provide adequate and reasonable assurance that transactions reported are recorded accurately and are within statutory authority.
- b) ensuring the integrity and objectivity of the financial statements to reflect the financial position and performance of the Lagos State Government.
- c) preparing its financial statements using suitable accounting policies supported by reasonable and prudent judgements and estimates that are consistently applied.

The Accountant General accepts responsibility for the annual Financial Statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with the transitional requirements of International Public Sector Accounting Standards and the requirements of the provision of the Finance (Control and Management) Act 1958 Cap 144 LFN as amended.

These Financial Statements provide adequate and reasonable assurance of the state of the financial affairs of the Lagos State Government and of its Financial Performance and Cashflows. The Accountant General further accepts responsibility for the maintenance of accounting records that may be relied upon in the preparation of Financial Statements, as well as adequate systems of internal financial control.

## LAGOS STATE GOVERNMENT

### **REPORT OF THE STATE AUDITOR-GENERAL TO THE MEMBERS OF THE LAGOS STATE HOUSE OF ASSEMBLY**

The financial statements of the Lagos State Government for the year ended 31<sup>st</sup> December 2022 set out on pages 11 to 97 of this report, which have been prepared on the basis of Accounting Policies set out on pages 16 to 46 have been audited under my supervision, as required by Section 125 of the 1999 Constitution of the Federal Republic of Nigeria, Sections 25 and 26 of the Lagos Audit Law, 2015 and Lagos State Public Finance Management Law, 2011.

#### **ACCOUNTANT GENERAL'S RESPONSIBILITIES**

The Accountant General is responsible for the preparation and presentation of the financial statements based on the Finance (Control and Management) Act 1958 Cap 144 LFN and section 14 of the Lagos State Public Finance Management Law, 2011. He is to ensure that there are no material misstatements in the financial statements.

#### **AUDITOR GENERAL'S RESPONSIBILITIES**

It is my statutory responsibility to form an independent opinion based on my audit of the financial statements and to report my opinion thereon.

#### **BASIS OF OPINION**

The audit was conducted in accordance with International Standards on Auditing as applicable to the public sector and the provisions of Section 125 of the Constitution of the Federal Republic of Nigeria and Sections 25 and 26 of the Lagos Audit Law, 2015. It includes examinations on a test basis, of evidence relevant to the figures disclosed in the financial statements. The audit was planned and performed to obtain all information and explanations considered necessary for reasonable assurance, that the financial statements are free from material misstatements. To this end, I have obtained all the information and explanations that I required.

#### **OPINION**

In my opinion, the Financial Statements of Lagos State Government for the year ended 31<sup>st</sup> December 2022, show a true and fair view of the State's financial Performance, the cash flow and the financial position available as at that date. It is necessary to state that Lagos State Government has consistently complied with the extant guidelines and provisions stipulated by the International Public Sector Accounting Standards [IPSAS] except for full consolidation of its Subsidiaries, Associates and Joint Ventures as required by IPSAS 35; as a result, the Lagos State Government is not able to make an explicit statement of its full compliance with Accrual Basis IPSAS. The Financial Statements contained herein are therefore referred to as the Accrual IPSAS-based Financial Statements of Lagos State Government for the financial year ended 31<sup>st</sup> December, 2022.

#### **SPECIAL OPINION**

The State received a tranche of the Year 2021 performance-based grant from the Federal Government in the year under review. The grant was subject to the State's performance against predefined criteria in the World Bank assisted States Fiscal Transparency, Accountability and Sustainability Program for Results (SFTAS P for R). The expenditure framework [and receipts] are detailed in Note 56 in the attached General Purpose Financial Statements of the State Government. In my opinion, the expenditures incurred [and funds received] against the SFTAS Program by the State for the year ended 31<sup>st</sup> December, 2022 in accordance with IPSAS as described in Note 56 were presented fairly in all material respects.

A handwritten signature in blue ink, appearing to read 'M. A. Adewuyi'.

## **Financial Statements**

### **For the year ended 31st December 2022**

#### **Notes to the Financial Statements**

---

#### **1 General Information**

Lagos State was created on May 27, 1967 by virtue of State (creation and transitional provisions) Decree no 14 of 1967, which restructured Nigeria's federation into 12 States and is located in the South-West of Nigeria, bounded in the north and east by Ogun State, in the west by the republic of Benin and in the south by the Atlantic ocean.

The coast line is about 200 kilometres long, and covers an area of about 358,862 hectares or 3,577 square km and represents about 0.4% of Nigeria's territorial land mass of 923,773 square km and it is a socio-cultural melting pot, making it a home to people across the globe.

Lagos State is a major economic centre of Nigeria and has become the 3rd largest megacity in Africa with a population of over 20 million, with a growth driven by vital reforms in the State Services such as Taxation, Transport, and Waste Management. Lagos State remains the economic and financial hub that is safe, secure, functional and productive through its potential to generate revenue.

The governance structure is currently under the Executive Leadership of Mr. Governor, Mr. Babajide Sanwo-Olu. The State House of Assembly is the legislative arm while the Lagos State Judiciary represents the third arm of government.

#### **2 Legal Basis and Accounting Framework**

The Financial Statements of the LASG have been prepared using the accrual basis in accordance with the requirements of International Public Sector Accounting Standards (IPSAS) and in accordance with Sections 13 and 14 of the Lagos State Public Finance Law 2011 while the Office of the Accountant General of Lagos State is empowered to choose the basis of reporting.

The accounting framework of the Lagos State Government (LASG) focuses on reporting the budgetary activities of the government for the financial year as laid down in the Appropriation Law.

#### **3 Basis of Preparation**

##### **(a) Statement of Compliance**

LASG adopted Accrual Basis IPSAS on 1st January 2016 and has consistently prepared its financial statements on this basis.

##### **(b) Basis of Measurement**

The financial statements have been prepared on the basis of historical cost, unless stated otherwise.

The following statements are presented:

\*Statement of Financial Position as at 31st December 2022

\*Statement of Financial Performance for the year ended 31st December 2022

\*Statement of Changes in Net Assets for the year ended 31st December 2022

\*Cash Flow Statement for the year ended 31st December 2022

\*Statement of Comparison of Budget and Actual information for the year ended 31st December 2022

##### **(c) Functional and Presentation Currency**

The financial statements are presented in Naira, which is the functional and reporting currency of LASG and all values are rounded to the nearest thousand (N'000).

##### **(d) Going Concern**

The financial statements have been prepared on a going concern basis.

**Lagos State Government**  
**Financial Statements**  
**For the year ended 31st December 2022**

**Notes to the Financial Statements**

---

**4 Accounting Principles**

The objective of the financial statements is to provide information about the financial position, performance and cash flows of LASG that is useful to a wide range of users. Being a public sector entity, the objectives were developed specifically to provide information useful for decision making, and also to demonstrate the level of LASG's accountability for the resources entrusted to it.

The key considerations and accounting principles to be followed when preparing the financial statements are those laid out in LASG's Financial Regulations and Public Finance Management Law (2011) and those described in IPSAS 1. This includes: fair presentation, accrual basis, going concern, consistency of presentation, aggregation, offsetting and comparative information.

Preparation of the financial statements in accordance with the above mentioned rules and principles requires management to make estimates that affect the reported amounts of certain items in the Statement of financial position and Statement of financial performance (economic outturn account), as well as the related disclosures.

**5 Accounting Periods**

The accounting year is from 1st January to 31st December.

**6 Summary of Significant Accounting Policies**

LASG has applied the following accounting policies in preparation of the financial statements for the year ended 31 December 2022. These policies have been consistently applied to all the years presented, unless otherwise stated.

**6.1 Revenue**

Revenue includes only the gross inflow of economic benefits or service potential received or is receivable by the entity on its own account. Those amounts collected as an agent of the government or on behalf of third parties are not considered as revenue. Revenue is measured at the fair value of the consideration received or receivable.

**6.1.1 Revenue from Non-exchange Transactions**

These are transactions in which LASG receives value from, without directly giving appropriately equal value in exchange. This includes mainly direct and indirect taxes. In addition to taxes, LASG also receives payments from other parties, such as transfers, grants, fines and donations.

**(a) Taxes Receipts**

Taxes are economic benefits or service potential compulsorily paid or payable to LASG, in accordance with laws and/or regulations, established to provide revenue to the Government. Taxes do not include fines or other penalties imposed for breach of the law. LASG recognises revenue from taxes by reference to the earning of assessable income by the taxpayers. Taxes are measured at the fair value of the consideration received or receivable to Lagos State Inland Revenue Service. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. LASG taxes include: Pay-As-You-Earn, Tax on Contract, Withholding Tax, Entertainment Tax, Capital Gain Tax, Stamp Duties, Development Levy, Property Tax, Business Premises and other tax receipts.

**(b) Levies, Fees and Fines**

These are inflows of future economic benefits or service potentials from non-exchange transactions other than taxes. They are economic benefits or service potential received or receivable by LASG, as determined by Lagos State laws or by a court and other law enforcement bodies, as a consequence of the breach of laws or regulations and are recognised at the point when the levy is being imposed.

**Lagos State Government**  
**Financial Statements**  
**For the year ended 31st December 2022**

**Notes to the Financial Statements**

---

**(c) Statutory Allocation**

Statutory allocation is income from the revenue allocation system wherein funds are allocated to each federating unit from the Federation Account based on certain predetermined criteria. Statutory allocation is measured at fair value and recognised at point of receipt.

**(d) Capital Receipts**

These include grants and other capital receipts. Capital receipts are measured at fair value or when there is an enforceable claim to receive the asset if it is free from conditions. Capital receipts are recognised when it is probable that the economic benefits or service potential related to the asset will flow to LASG and can be measured reliably.

**(e) Other Revenue from Non-exchange Transactions**

These represent revenue from Lottery Board and recovered funds. Revenue from Lottery Board is received from lottery and bet operators in the State. This is recognised at the fair value of the consideration received or receivable.

**6.1.2 Revenue from Exchange Transactions**

These are transactions in which LASG receives consideration from, and directly gives approximately equal value in exchange for goods, services or use of assets. They are recognised at fair value of consideration received or receivable. LASG revenue from exchange transactions include: Private Sector Developer Programme, Lekki-Ikoyi toll revenue, rent on LASG properties, proceeds from hospital units and other miscellaneous revenue from exchange transactions.

Revenue from the sale of goods and services is recognised when the significant risk and rewards of ownership of the goods are transferred to the buyer. This is when the goods have been delivered and when the revenue can be measured reliably and it is probable that the economic benefits or service potential associated with the transaction will flow to LASG.

Revenue involving the provision of services is recognised by reference to the stage of completion of the transaction at the reporting date.

Revenue arising from the use by others of LASG's assets yielding rental income, interest, royalties and dividends or similar distributions, are recognised as they are earned in accordance with the substance of the relevant agreement. Revenue is recognised when the amount can be measured reliably, and it is probable that the economic benefits or service potential associated with the transaction will flow to LASG.

Where the contract outcome cannot be measured reliably, revenue is recognised only to the extent that the expenses incurred are recoverable.

**(a) Rental Income**

Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms and included in revenue.

**(b) Revenue from Other Services**

Revenue from other services include proceeds from Private Sector Developer Programme, Lekki-Ikoyi toll revenue, proceeds from hospital units and other miscellaneous revenue from exchange transactions. LASG recognises revenue from rendering of services as it is earned, that is, as the services is provided. It is measured at the fair value of the consideration received or receivable.

**(c) Investment Income**

Investment income consists of dividend income. Dividend income or similar distributions are recognised when LASG's right to receive payment is established.

**Lagos State Government**  
**Financial Statements**  
**For the year ended 31st December 2022**

**Notes to the Financial Statements**

---

**6.2 Public Debt Charge**

Interest cost is calculated using the Effective Interest Rate Method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income / cost for each period.

**6.3 Cash and Cash Equivalent**

Cash and cash equivalents as shown in the statement of financial position comprises cash-in-hand or bank, deposit held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**6.4 Inventory**

Inventories are stated at the lower of cost, current replacement cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less any applicable completion and selling expenses. When inventories are held for distribution at no charge or for a nominal charge, they are measured at the lower of cost and current replacement cost. Current replacement cost is the cost the LASG would incur to acquire the asset on the reporting date.

The cost of finished goods and work in progress is determined using the first-in, first-out (FIFO) method and comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity), incurred in bringing inventory to its present location and condition but excludes borrowing costs.

**6.5 Financial Instrument**

A financial instrument is any contract that gives rise to both a financial asset of one entity and a financial liability or equity instrument of another entity. LASG classifies its financial assets in the following categories: at fair value through surplus or deficit, held to maturity, loans and receivables, and available for sale. The classification depends on the purpose for which the financial assets were acquired.

LASG classifies its financial liabilities at fair value through surplus or deficit and at amortised cost. Classification of financial liabilities is based on the nature or characteristic of the instrument. The Office of the Accountant General determines the classification of its financial assets and liabilities at initial recognition.

**6.5.1 Classification**

**(a) Financial Assets and Liabilities at Fair Value through Surplus or Deficit**

Financial assets or liabilities at fair value through surplus or deficit are financial assets or liabilities held for trading. A financial asset or liability is classified in this category if: acquired principally for the purpose of selling or repurchasing in the short term; or on initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent pattern of short-term profit taking. Assets in this category are classified as current assets if expected to be realised within twelve months; otherwise, they are classified as non-current assets.

**Lagos State Government**  
**Financial Statements**  
**For the year ended 31st December 2022**

**Notes to the Financial Statements**

---

**(b) Loans and Receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than twelve months after the end of the reporting period. These are classified as non-current assets. LASG's loans and receivables comprise 'receivables from exchange transactions', 'recoverable from non-exchange transactions', 'other receivables' and 'cash and cash equivalents' and are presented in the statement of financial position.

**(c) Available-for-sale Investments**

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or LASG intends to dispose of it within 12 months of the end of the reporting period. LASG has recognised some of its quoted and unquoted investments as well as managed funds as available-for-sale Investment.

**(d) Financial Liabilities at Amortised Cost**

Financial Liabilities at amortised cost include Payables, Other Liabilities and Debts.

**6.5.2 Categories and Measurement**

**(a) Financial Asset or Financial Liability at Fair Value through Surplus or Deficit**

Financial instruments in this category are measured at fair value on both initial recognition and subsequently. Transaction costs are expensed in the statement of financial performance. Surplus and deficit arising from changes in fair value are presented in the statement of financial performance within "other surplus and deficit (net)" in the period in which they arise. Non-derivative financial assets and liabilities at fair value through surplus or deficit are classified as current except for the portion expected to be realised or paid beyond twelve months of the reporting date, which are classified as long-term.

**(b) Loans and Receivables**

Loans and receivables are initially recognised at fair value less transaction costs. Subsequently, loans and receivables are measured at amortised cost using the effective interest method less a provision for impairment.

**(c) Available-for-sale Investments**

Available-for-sale investments are recognised initially at fair value plus transaction costs and are subsequently carried at fair value. A gain or loss on an available-for-sale financial asset shall be recognised directly in net assets through the Statement of changes in net assets, except for impairment losses and foreign exchange gains and losses, until the financial asset is derecognised, at which time the cumulative gain or loss previously recognised in net assets shall be recognised in surplus or deficit. On the other hand, interest calculated using the effective interest method is recognised in surplus or deficit. Available-for-sale investments are classified as non-current asset, unless an investment matures within twelve months, or the directors expect to dispose of it within twelve months.

**(d) Financial Liabilities at Amortised Cost**

Financial liabilities measured at amortised cost are recognised initially at fair value, net of any transaction costs incurred, and subsequently at amortised cost using the effective interest method. These are classified as current liabilities if payment is due within twelve months. Otherwise, they are presented as non-current liabilities.

**Lagos State Government**  
**Financial Statements**  
**For the year ended 31st December 2022**

**Notes to the Financial Statements**

---

**6.5.3 Recognition and De-recognition**

Financial instruments are recognised when LASG becomes a party to the contractual provisions of the instrument. Planned future transactions, no matter how likely their occurrence may be, are not assets and liabilities because the entity has not become a party to a contract.

Financial assets are derecognised when the rights to receive cash flows from the assets have expired or have been transferred and LASG has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expires.

**6.5.4 Reclassification**

LASG may choose to reclassify a non-derivative trading financial asset out of the held for trading category if the financial asset is no longer held for the purpose of selling it in the near term. Financial assets other than loans and receivables are permitted to be reclassified out of the held for trading category only in rare circumstances arising from a single event that is unusual and highly unlikely to recur in the near term.

Reclassifications are made at fair value as of the reclassification date. Fair value becomes the new cost or amortised cost as applicable, and no reversals of fair value gains or losses recorded before reclassification date are subsequently made.

**6.5.5 Offsetting Financial Instruments**

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business.

**6.5.6 Impairment of Financial Assets**

LASG assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets are impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate.

The carrying amount of the asset is reduced and the amount of the loss is recognised in the statement of financial performance. If a loan or held-to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

As a practical expedient, LASG may measure impairment on the basis of an instrument's fair value using an observable market price. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the statement of financial performance.

**Lagos State Government**  
**Financial Statements**  
**For the year ended 31st December 2022**

**Notes to the Financial Statements**

**6.5.7 Financial Instruments Denominated in Foreign Currencies**

These are financial instruments denominated in a currency other than the functional currency that results in the contractual right to collect, or contractual obligation to deliver cash in foreign currencies such as external loans where the amounts payable or receivable are denominated in a foreign currency.

Financial instruments denominated in a foreign currency are initially recognised in the functional currency, by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. At each subsequent reporting date, these financial instruments are translated using the closing rate.

**6.6 Property, Plant and Equipment (PPE)**

LASG performed an asset verification exercise in order to determine the deemed cost of some PPE items as at the date of adoption of IPSAS. Recognition of PPE items will be on a class by class basis.

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition or construction of the asset. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits or the service potentials, associated with the item will flow to LASG and its cost can be measured reliably.

Repairs and maintenance costs are charged to the statement of financial performance during the financial period in which they are incurred.

Finance costs attributable to amounts borrowed by LASG to fund the acquisition of property, plant and equipment are expensed immediately they are incurred.

Assets under construction are not depreciated as these assets are not yet available for use. Depreciation on other assets is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives.

**6.6.1 Depreciation Rates**

The following standard rates shall be applied to all LASG assets:

<b>Item</b>	<b>Depreciation Rate</b>
Land	N/A
Building	2%
Constructed asset*	2%-10%
Heritage asset	N/A
Capital work in progress	N/A
Plant and machinery	5%
Motor vehicle	25%
Biological asset	10%-50%
Computer office & equipment	25%
Intangible Asset	25%
Concession asset	5%
Leased asset	10%
Furniture and fitting	10%

\*The following depreciation rates were used for constructed assets: bridges: 2%; roads: 5%; traffic lights: 5%;

Gains or losses on disposals are determined by comparing proceeds less selling expenses with the carrying amount of the disposed asset and are included in the Statement of financial performance.

**Lagos State Government**  
**Financial Statements**  
**For the year ended 31st December 2022**

**Notes to the Financial Statements**

---

**6.7 Public Debt Charge**

Public debt charges are interest and other expenses incurred by LASG in connection with the borrowing of funds for qualifying assets. LASG has adopted the benchmark treatment, under which public debt charges are recognised as an expense in the period in which they are incurred, regardless of how the debts are applied.

**6.8 Impairment of Non-financial Asset**

Impairment is defined as a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation.

LASG assesses whether there is any indication that an asset may be impaired at each reporting date. If any such indication exists, LASG will estimate the recoverable amount of the asset. For intangible assets, irrespective of whether there is any indication of impairment, LASG will test its intangible asset with an indefinite useful life or an intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. If there is an indication that an asset may be impaired, this may indicate that the remaining useful life, the depreciation (amortisation) method, or the residual value for the asset needs to be reviewed and adjusted in accordance with the standard applicable to the asset. If the reasons for impairments recognised in previous years no longer apply, the impairment losses are reversed accordingly.

Recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. Impairment loss is recognised when the recoverable amount of an asset is less than its carrying amount. The carrying amount of the asset shall be reduced to its recoverable amount. An impairment loss shall be recognised immediately in surplus or deficit.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset shall be adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

**Cash-generating Units**

A cash-generating unit is the smallest identifiable group of assets held with the primary objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets. Identification of an asset's cash-generating unit involves judgment. If recoverable amount cannot be determined for an individual asset, LASG will determine the recoverable amount of the cash-generating unit to which the asset belongs (the asset's cash-generating unit).

**6.9 Employee Benefits**

**(a) Short term employee benefits**

LASG accrues for the following short term benefits in the period in which the associated services are rendered by its employees: salaries; wages; paid annual leave; short term compensated absence and short-term performance bonuses. LASG recognises short term employee benefits costs when employees render services in exchange for these benefits to the extent that the benefits are not yet paid at the reporting date.

**Notes to the Financial Statements**

---

**b) Defined Benefit Plan**

LASG operated a defined benefit pension plan up to 31st March 2007. The liability recognised in the statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the Statement of financial position date. The defined benefit obligation is calculated by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised immediately in the surplus or deficit. Past-service costs are recognised immediately in the surplus or deficit, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period), in which case, the past-service costs are amortised on a straight-line basis over the vesting period. A provision of 5% on gross salaries is made monthly into a sinking fund managed by the Lagos State Pension Commission for the eventual payment of this liability.

**(c) Defined Contribution Plan**

LASG operates a defined contribution pension scheme for members of staff which is independent of its finances and is managed by pension fund administrators. The Scheme is funded by 7.5% contribution from employees and 7.5% contribution from the employer. The new rate of 8% contribution by employees and 10% contribution by employers in accordance with the amended pension reform law of 22nd february,2019 took effect from January 2020. LASG has no further payment obligations once the contributions have been paid. Contribution payable is recorded as an expense under 'staff costs' while unpaid contributions are recorded as a liability. No actuarial computation is required because LASG does not bear any risk in respect of the plan.

**d) Other Long Term Employment Benefits**

These are all employee benefits other than post employment benefits and termination benefits. The amount recognised as the liability is the net total at the end of the reporting period of the present value of the defined benefit obligation. The net total of the service cost, net interest and re-measurement of the defined benefit liability are recognised in the statement of financial performance.

**7 Foreign Currency Transactions**

Items included in the financial statements of each of LASG's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Nigerian Naira (NGN), which is LASG's functional and presentation currency. Foreign currency transactions throughout the year are converted into Nigerian Naira at the ruling Central Bank of Nigeria (CBN) rate of exchange at the dates of the transactions. Foreign currency balances as at the year-end are valued at the exchange rates prevailing at that date.

Monetary assets and liabilities denominated in foreign currencies are translated into Nigerian Naira on the basis of the exchange rates applicable at the reporting period. Foreign exchange gains and losses that relate to debts are presented within the finance cost in the statement of financial performance. All other foreign exchange gains and losses are presented in the statement of financial performance on a net basis within other income or other expenses.

Non-monetary items that are measured at fair value in foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

**For the year ended 31st December 2022**

**Notes to the Financial Statements**

---

**8 Significant Accounting Judgments, Estimates and Assumptions**

**8.1 Contingent Assets**

A contingent asset is a possible asset that arises from past events and of which the existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of LASG. A contingent asset is disclosed when an inflow of economic benefits or service potential is probable.

**8.2 Contingent Liabilities**

A contingent liability is a possible obligation that arises from past events and of which the existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the LASG, or a present obligation that arises from past events but is not recognised because:

- it is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation or,
- the amount of the obligation cannot be measured with sufficient reliability.

The preparation of LASG's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

**8.3 Estimation and Assumption**

The preparation of financial statements in conformity with IPSAS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying LASG's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed herein.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. LASG makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results.

**8.4 Fair Value Estimation**

Where the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be derived from active markets, their fair value is determined using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, judgment is required in establishing fair values. Judgment includes the consideration of inputs such as liquidity risk, credit risk, financial risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

**8.5 Recoverable from Non-exchange Transactions**

A recoverable is recognised when revenue is earned but cash or its equivalent is yet to be received. In accordance with revenue recognition criteria, LASG has measured its recoverables arising from tax receipts by using statistical model based on the history of collecting the particular tax in prior periods.

**Lagos State Government**  
**Financial Statements**  
**For the year ended 31st December 2022**

**Notes to the Financial Statements**

---

**8.6 Employee Benefit Obligation**

The cost of the defined benefit pension plan, long service awards, gratuity scheme and post-employment medical benefits and the present value of these defined benefit obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

**8.7 Depreciation and Carrying Amount of Property, Plant and Equipment**

The estimation of the useful lives of PPE is based on the state's accounting policy. Any material adjustment to the estimated useful lives of items of property, plant and equipment will have an impact on their carrying value.

**8.8 Finance Lease**

Leases of property, plant and equipment where LASG, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the balance outstanding.

The corresponding rental obligations, net of finance charges, are included in long term liabilities if the tenure is more than one year. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Property, plant and equipment acquired under finance leases are depreciated on a straight-line basis over the asset's useful life or over the shorter of the asset's useful life and the lease term.

Public debt consist of bond issues, internal and external loans. Internal loans consist of fifty-seven (57) loan facilities from various local banks with total amortised principal of 479 billion naira and interest rates ranging from 10%-21% per annum . The external loan includes twenty-six (26) loan facilities for various projects repayable in foreign currencies. The outstanding principal of the foreign loans sum up to about 1.29billion dollars, with tenor between 20 to 40 years and moratorium between 5 to 13 years.

Lagos State Government has loan balances running from 1989 (35 year tenor) to the most recent signed in 2022. Interest rates on foreign loans range between 0.75% to 2.37%. Lagos State Government complied with the financial instruction of its borrowing facilities by issuing monthly Irrevocable Standing Payment Orders (ISPO) which served as security for the loans. The loans are measured at amortised cost using the effective interest method. All foreign loans have been translated to Naira using the prevailing exchange rates at the reporting date.

LASG had three bond programmes with nominal and amortised cost balance of N281.4 billion and 275.7 billion respectively as at 31 December 2022 ,with coupon rate ranging from 12.25% to 17.25% and maturity dates ranging from 2027 to 2031. LASG has also set aside managed funds which is used to make payments on the bond liabilities as they fall due. Bond liabilities are classified as held to maturity and measured at amortised cost.

Total lease liabilities	<b>19,146,677</b>	<b>20,958,245</b>
<b>ii The present value of Finance Lease Liabilities is as follows:</b>		
Within one year	4,034,539	4,203,728
Later than one year but not later than five years	11,691,073	12,202,222
Later than five years	3,421,065	4,552,295
Minimum Lease Payments	<b>19,146,677</b>	<b>20,958,245</b>
<b>iii Lease Rental Payments</b>		
Alausa Power Plant	763,452	763,452
Akute Power Plant	-	-
Island Power Plant	-	536,952
Mainland Power Plant	172,922	172,922
PIPP Genco Power Plant	-	1,870,506
Viathan Engineering	3,600,000	2,100,000
	<b>4,536,374</b>	<b>5,443,832</b>

LASG entered into lease agreements with the following five independent power generation companies: Akute Power Limited, Island Power Limited, Alausa Power Limited, Mainland Power Limited and PIPP LVI Genco Limited. Each of the lease agreements is for a minimum lease term of ten years. Some of the lease agreements have expired :- Akute (2020) and Island (2021).

The power generation companies are to build and operate the power plants with a minimum of 97% guaranteed availability for LASG. The leases are treated as finance leases, and LASG, the lessee. The power plants are recognized as leased assets under property, plant and equipment (PPE). In the Year 2021, LASG entered into a new lease agreement with Viathan Engineering Ltd, for the lease of two (2) power plants:- PIPP LVI Genco Limited and Island Power Limited, with a monthly lease payment of N300m. This lease agreement effectively cancelled the former lease agreements that LASG had with PIPP LVI Genco Limited with a proviso in the agreement that all outstanding obligations on PIPP LVI Genco Limited be liquidated. This new lease agreement was omitted in the prior year 2021 financial statements.

In line with IPSAS 13 on leases, the Net Present Value (NPV) of the minimum lease payment of the power plant was calculated using the lessee's incremental borrowing rate of 13% amounting to N20.092b which was recognised as PPE and also a liability in the prior period.

**36 Retirement Benefit Obligations**

The Lagos State Government has recognised liabilities of gratuities due to its employees. These gratuities were based on valuations performed by Alexander Forbes Consulting Actuaries Nigeria Limited as at 31st December 2022, using a Projected Unit Method, prescribed by IPSAS 39.

The assumptions used in the valuation are set out below:

Plan assets are valued at current market value as at 31st December 2022 in line with IPSAS 39. The plan assets are creditor remote, meaning should the State Government go insolvent, its creditors would not be able to access these assets held to back the post-employment retirement benefit liability.

**Developments since the previous Valuation**

With effect from 31st March 2007, the State Government migrated its staff from the defined benefit plan to a defined contributory scheme. However, eligible staff members who had retired by 31 March 2007 continue to enjoy pension for life while staff members in active service at the date of migration are entitled to accrued benefits under the defined benefit plan as at 31st March 2007. The amount is payable whenever the employee leaves the employment of the State Government.

**Lagos State Government**  
**Financial Statements**  
**For the year ended 31st December 2022**

**Notes to the Financial Statements**

**Liability recognised in the Statement of Financial Position is as follows:**

	<b>31-Dec-22 N'000</b>	<b>31-Dec-21 N'000</b>
Defined Benefit Obligation	(33,524,543)	(33,303,787)
Assets at Fair Value	18,936,395	21,828,405
<b>Deficit</b>	<b>(14,588,148)</b>	<b>(11,475,382)</b>
Unrecognised due to limit*	-	-
<b>Liability Recognised</b>	<b>(14,588,148)</b>	<b>(11,475,382)</b>

\*The limit ensures the asset to be recognised in the State government's statement of financial position is subject to a maximum of the present value of any economic benefits available to the State government in the form of refunds or reductions in future contributions.

State Government Contributions	17,641,712	9,167,657
Benefit Payments	(13,504,865)	(10,704,507)
<b>Total Cashflows</b>	<b>4,136,847</b>	<b>(1,536,850)</b>

When interpreting the above, please note the following:

"Interest cost on defined benefit obligation" allows for actual benefit payments.

"Interest income on assets" allows for actual contributions and actual benefit payments.

Benefit payments for the year ending 31st December 2022 have been based on cash flow information provided by the State Government for the period 1st January 2022 to 31st December 2022.

**Lagos State Government**  
**Financial Statements**  
**For the year ended 31st December 2022**

**Notes to the Financial Statements**

**A Reconciliation of Assets/ (Liability) Recognised in the Statement of Financial Position**

	<b>31-Dec-22</b> <b>N'000</b>	<b>31-Dec-21</b> <b>N'000</b>
Liability at beginning of year	(11,475,382)	(15,066,885)
Net expense recognised in surplus or deficit	(257,489)	(377,390)
Re-measurements recognised in statements of changes in net assets	(20,496,989)	(5,198,764)
State Government contributions to defined benefit plan	17,641,712	9,167,657
<b>Liability at end of year</b>	<b>(14,588,148)</b>	<b>(11,475,382)</b>

**B Re-measurements Recognised in Statement of Changes in Net Assets**

	<b>31-Dec-22</b> <b>N'000</b>	<b>31-Dec-21</b> <b>N'000</b>
Current year gain/ (losses)	(20,496,989)	(5,198,764)
Change in Paragraph 65 limit	nil	nil
<b>Re-measurements recognised in Net Assets/Equity</b>	<b>(20,496,989)</b>	<b>(5,198,764)</b>

**C Reconciliation of Defined Benefit Obligation**

	<b>31-Dec-22</b> <b>N'000</b>	<b>31-Dec-21</b> <b>N'000</b>
Defined Benefit Obligation at beginning of year	33,303,787	37,696,271
Service Cost	-	-
Interest Cost	2,575,481	1,164,385
Actuarial (Gain)/ Loss	11,150,140	5,147,638
Benefit Paid	(13,504,865)	(10,704,507)
<b>Defined Benefit Obligation at end of year</b>	<b>33,524,543</b>	<b>33,303,787</b>

The loss on the defined benefit obligation is largely as a result of change in economic assumptions, increase in benefits due and demographic experience being different than expected.

**The above factors contributed to the net actuarial loss as follows:**

	<b>31-Dec-22</b> <b>N'000</b>	<b>31-Dec-21</b> <b>N'000</b>
Change in economic assumptions	(1,261,535)	(5,299,426)
Demographic experience	12,411,675	10,447,064
	<b>11,150,140</b>	<b>5,147,638</b>

The accrued liability amounted to N 33,303,787,000 as at 31 December 2021. Assuming that all actuarial assumptions had borne out in practice, the expected accrued liability as at 31 December 2022 is N 22,374,403,000. The accrued liability calculated in this valuation is N 33,524,543,000, reflecting an unexpected loss of N 11,150,140,000, as shown in the table above.

**D Reconciliation of Fair Value of Plan Asset**

	<b>31-Dec-22</b> <b>N'000</b>	<b>31-Dec-21</b> <b>N'000</b>
Assets at Fair Market Value as beginning of year	21,828,405	22,939,008
Expected Return on Assets	2,317,992	786,995
Member Contributions	-	-
Employer Contributions	17,641,712	9,167,657
Benefit Payments	(13,504,865)	(10,704,507)
Actuarial Loss*	(9,346,849)	(360,748)
<b>Assets at Fair Market Value as at end of the year</b>	<b>18,936,395</b>	<b>21,828,405</b>
<b>Actual Return on Assets</b>	<b>(7,028,857)</b>	<b>735,869</b>

\*The net actuarial loss on the fair value of plan assets arose as a result of the actual returns on the assets being lower than the calculated interest income on assets.

The market value of plan assets amounted to N 21,828,405,000 as at 31 December 2021 and the expected value of plan assets as at 31 December 2022 is N 28,283,244,000. The actual market value of plan assets as at 31 December 2022 is N 18,936,395,000, reflecting an unexpected loss of N 9,346,849,000

These figures are based on membership data as at 31 December 2022.

**ii Reconciliation of Changes in Membership**

	<b>SUBEB</b>	<b>Local government</b>	<b>Core civil service</b>	<b>Total</b>
Membership at beginning of the year	11,194	8,253	19,242	38,689
Exits moved to benefits due	(1,046)	(450)	(1,264)	(2,760)
On payments schedule	(2)	(6)	(15)	(23)
Suspended moved to benefits due	-	(4)	(63)	(67)
Unreconciled	(9)	(52)	(235)	(296)
<b>Membership at end of the year</b>	<b>10,137</b>	<b>7,741</b>	<b>17,665</b>	<b>35,543</b>

**Economic Assumptions**

The economic assumptions used in this valuation are based on market information as at 31st December 2022.

Key Economic Assumptions(per annum)	<b>Asset as at 31 December 2022 and Expense for the year ending 31 December 2023</b>	<b>Asset as at 31 December 2021 and Expense for the year ended 31 December 2022</b>
Discount rate*	12%	10%
Benefit increase rate**	0%	0%

\*The rate used to discount post-employment benefit obligations should be determined by reference to market yields at the balance sheet date on high quality corporate bonds. In countries where there is no deep market in such bonds, the market yields (at the balance sheet date) on government bonds should be used. In our opinion, there is no deep market in corporate bonds in Nigeria. We have set our discount rate with reference to the yields on Nigerian Government bonds with the nearest expected duration as compiled by the Financial Markets Dealers Quotation (FMDQ). In terms of the accounting standards historical yields are less important and we consequently consider it appropriate to use the discount rate of 12.10% per annum. The expected duration of the liabilities was calculated to be 2 years.

\*\*We have assumed that the level of annual salary increases to be awarded in the long-term will, on the average, be 0.00% per annum as advised by LASG.

**Lagos State Government  
Financial Statements  
For the year ended 31st December 2022**

**Notes to the Financial Statements**

**Demographic Assumptions**

The following demographic assumptions have been used in performing the valuation:

**a. Mortality**

Pre-retirement mortality tables :

Male and Female Mortality			
0.00111			0.00111
0.00112			0.00112
0.00113			0.00113
0.00114			0.00118
0.0012			0.00158
0.00171			0.00372
0.0042			0.00837
0.00931			0.0172

**b. Withdrawal and Retirement**

It was assumed that withdrawals and retirements would be in accordance with the following table:

Age group	Annual rate of withdrawal/retirement
18 – 29	20%
30 – 34	15%
35 - 39	10%
40 – 44	5%
45 – 49	1%
50 - 59	2%
60	100%

**37 Notes to the Statement of Comparison of Budget and Actual**

(a) The Lagos state government budget is approved on a cash basis by functional classification and covers the fiscal period from 1st January, 2022 to 31st December, 2022.

(b) The budget and the accounting basis of the LASG financial statements differ. The Lagos State Government financial statements are prepared on the accrual basis, using a classification based on the nature of expenses in the statement of financial performance while the budget is prepared and approved on a cash basis.

(c) The amounts in the financial statements were represented from the accrual basis to the cash basis as the final approved budget in the statement of comparison of budget and actual.

(d) A reconciliation between the actual amounts on a comparable basis as presented in the statement of comparison of budget and actual amounts and the actual amounts in the statement of cash flows for the year ended December 31st, 2022 is presented below.

There is no timing difference because the financial statements and budget documents are prepared for the same period. There is nil entity difference: the budget is prepared for the ministries, departments, agencies and parastatals, and the financial statements have not yet consolidated all entities controlled by the government, including commercial public sector enterprises. There is no basis difference as the actual amounts in the statement of comparison of budget and actual amounts and the actual amounts in the statement of cash flows for the year have been presented on a cash basis.

Lagos State participated in the World Bank Assisted States Fiscal Transparency, Accountability and Sustainability Program for Results (SFTAS P for R) having met the Eligibility Criteria for 2019. The amount of Grant is determined by Disbursement Linked Results achieved by the State as defined in the Subsidiary Grant Agreement. The achievement of performance by the State is verified by an Independent Verification Agent. The Program Expenditure Framework for SFTAS Program comprises expenditures incurred in the following budget lines:

	2022			2021			2020			2019		
	PERSONNEL N'000	OVERHEADS N'000	TOTAL N'000	PERSONNEL N'000	OVERHEADS N'000	TOTAL N'000	PERSONNEL N'000	OVERHEADS N'000	TOTAL N'000	PERSONNEL N'000	OVERHEADS N'000	TOTAL N'000
