COMMENTS OF THE
STATE AUDITOR-GENERAL
ON THE
AUDITED ACCOUNTS
OF
LAGOS STATE GOVERNMENT
FOR THE FINANCIAL YEAR ENDED
31ST DECEMBER, 2024

1.00 INTRODUCTION

The Accounts of Lagos State Government for the financial year ended 31st December, 2024 have been examined under my direction in accordance with Section 125 of the 1999 Constitution of the Federal Republic of Nigeria [as amended] and Sections 25, and 26 of the Audit Law [as amended] Ch.A13 Laws of Lagos State 2015.

The Office of the State Auditor-General, in line with its constitutional mandate, provides opinion on whether the Financial Statements of the State Government are presented fairly and completely.

The Financial Statements audit provides a veritable avenue to add value to the system through pertinent recommendations on ways to enhance the quality of Financial Controls and Reporting; Accounting and Management Control Systems of the State Government, with a view to improve the judicious utilization of its resources for public good. Thus, this report reflects observations and recommendations, and detailed analysis of the financial information presented to this Office by the State Accountant-General.

1.10 Consideration of Year 2023 Audited Financial Report

The audited accounts of the State Government for the Year ended 31st December, 2023 was submitted to the Lagos State House of Assembly on 13th June, 2024 and had been considered by the Public Accounts Committee of the State House of Assembly; however, the final report of the Committee thereon, as required by Section 33(1)(e) of the Audit Law [as amended] Ch.A13 Laws of Lagos State, is still being awaited.

1.20 Financial Reporting Standards

The Financial Statements for the financial year ended, 31st December, 2024 was prepared with the standard templates for General Purpose Financial Statements [GPFS] in line with the International Public Sector Accounting Standards [IPSAS] Accrual Based Accounting and its attendant reporting features.

1.30 Audit Approach

Audit adopts a risk-based approach and examinations, on a test basis, of the evidence presented to support the balances, assertions, and disclosures in the Financial Statements prepared by the State Accountant-General. It also involves an assessment of the significant estimates and judgements contained in the Financial Statements as to whether they are derived from the accounting policies modelled after IPSAS and the Public Finance Management Law Ch.P15 Laws of Lagos State 2015.

The audit was conducted in accordance with International Standards on Auditing and INTOSAI Auditing Standards, which requires that I must comply with ethical requirements, plan and perform the audit to obtain reasonable assurance that the Financial Statements are free from material misstatements. As a result, I have obtained the necessary information and explanations that to the best of my knowledge and belief are necessary for the purpose of the audit; as such, it is my belief that the audit evidence obtained is sufficient and appropriate to provide a reasonable basis for my opinion.

2.00 IPSAS IMPLEMENTATION IN LAGOS STATE

The implementation of Accrual Basis of IPSAS Accounting in Lagos State commenced on 1st January, 2016 and therefore the current Year 2024 Audited Financial Statements is the Ninth in the series. The IPSAS standards require a full consolidation [aggregation] of all Government Ministries, Departments, Agencies [MDAs] and Parastatal Organizations; however, the consolidation of the Subsidiaries, Associates and Joint Ventures of the State Government has not yet occurred and as such, the figures contained in these Financial Statements presented by the Accountant-General were yet to fully reflect all the activities of the State Government.

Therefore, in order for the State Government to have a holistic view of its financial performance and position; there is the need for consolidation of all accounts, which would provide full information and allow for adequate assessments thereof.

As at date, the under-listed classes of Assets have been recognized, measured and reported in the Year 2024 Accrual IPSAS Based LASG Financial Statements:

- Infrastructural Assets
- Land and Buildings
- Plant and Machinery
- Furniture and Fittings
- Motor Vehicles
- Medical and Laboratory Equipment
- Computer and Office Equipment
- Computer Software,
- Library Books
- Specialized Equipment [such as Fire Fighting Equipment, Oxygen Tank, Reservoir, Survey & Precision Equipment, Waste Disposal Trucks etc.]
- Parks and Gardens,
- Lease Assets,
- Boats
- Buses, and;
- Transport Interchange/Bus Terminals

However, the under-listed other classes of valuable assets of LASG were yet to be recognized, measured and eventually brought into the State's Financial Statements, namely:

- Investment Property,
- Heritage Assets,
- Biological Assets, and;
- Concession Assets [where applicable].

It is necessary to state that Related parties' disclosures were also observably not recognized in the Year 2024 Financial Statements

3.00 FINANCIAL STATEMENTS OF MINISTRIES, DEPARTMENTS AND AGENCIES [MDAs]

Further to the audit comment in our previous reports, Audit reiterates that the timeline set by the Lagos State Public Finance Management Law for the submission of audited Financial Statements to the State Treasury Office and Auditor-General by the Parastatal

Organizations of Government coincides with that set for the State Treasury Office [STO] as well. It is therefore necessary to re-visit the Statute and revise the timeline for submission of Financial Statements by the Parastatal Organizations to precede the date of submission by STO as required by Statutes; in order for the information therein to serve as valid corroborative evidence for both STO and Audit and to engender full aggregation and consolidation of the accounts of all public entities in the State.

Meanwhile, the Audit Inspection on the Ministries, Departments and Agencies [MDAs] and Periodic Check on the Parastatal Organizations of the State for Year 2024 is still on going. The full reports in respect thereof which will be based on the distinct Nine [9] Sectorial Classifications of Functions of Government [COFOG] will be contained in other volumes of the Auditor-General's Statutory Report for Year 2024.

4.00 CONCLUSION

In conclusion, our previous audit and current review of the Oracle Enterprise Resource Planning [ERP] suite [platform from where the Financial Statements were generated] still showed that not all the Oracle Financial Modules procured by the State Government were fully deployed and functional. Therefore, the requisite controls and other relevant functionalities built into the existing Oracle System have not been fully utilised. Audit opines that the full optimization and upgrading of the Oracle Applications need to be pursued vigorously for effective financial reporting.

M. J. Adetola
State Auditor-General

Lagos State Government
Financial Statements
For the year ended 31st December 2024

The Responsibilities of the Accountant General

The Financial Statements have been prepared in accordance with the provision of the Finance (Control and Management) Act 1958 Cap 144 LFN and PFM Law 2011 as amended.

These financial statements are in line with the Generally Accepted Accounting Principles and Practice and other Government accounting regulations and pronouncements.

The Accountant General of the state is responsible for:

- a) establishing and maintaining an adequate system of internal controls to provide adequate and reasonable assurance that transactions reported are recorded accurately and are within statutory authority.
- b) ensuring the integrity and objectivity of the financial statements to reflect the financial position and performance of the Lagos State Government.
- c) preparing its financial statements using suitable accounting policies supported by reasonable and prudent judgements and estimates that are consistently applied.

The Accountant General accepts responsibility for the annual Financial Statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with the transitional requirements of International Public Sector Accounting Standards and the requirements of the provision of the Finance (Control and Management) Act 1958 Cap 144 LFN as amended.

These Financial Statements provide adequate and reasonable assurance of the state of the financial affairs of the Lagos State Government and of its Financial Performance and Cashflows. The Accountant General further accepts responsibility for the maintenance of accounting records that may be relied upon in the preparation of Financial Statements, as well as adequate systems of internal financial control.

ABIODUN. S. MURITALA
PERMANENT SECRETARY/ACCOUNTANT-GENERAL
LAGOS STATE

May 15, 2025

LAGOS STATE GOVERNMENT

AUDIT CERTIFICATE

The financial statements of Lagos State Government for the year ended 31st December 2024 set out on pages 10 to 107 of this report, which have been prepared on the basis of Accounting Policies set out on pages 15 to 25, have been audited under my supervision as required by Section 125 of the 1999 Constitution of the Federal Republic of Nigeria [as amended], and Sections 25 and 26 of the Audit Law [as amended] Ch.A13 Laws of Lagos State, 2015, and Public Finance Management Law Ch.P15, Laws of Lagos State, 2015.

Auditor General's Responsibility

It is my statutory responsibility to form an independent opinion based on my audit of the financial statements and to report my opinion thereon.

Basis of Opinion

The audit was conducted in accordance with International Standards on Auditing and INTOSAI Auditing Standards, and relevant laws and regulations covering Public Sector practice. It includes examinations on a test basis, of evidence relevant to the figures disclosed in the financial statements.

The audit was planned and performed to obtain all information and explanations considered necessary for reasonable assurance that the financial statements are free from material misstatements. To this end, I have obtained all the information and explanations that I required.

Opinion

In my opinion, the Financial Statements of Lagos State Government for the year ended 31st December 2024, show a true and fair view of the State's financial performance, the cash flow and the financial position available as at that date.

It is necessary to state that Lagos State Government has consistently complied with the extant guidelines and provisions stipulated by the International Public Sector Accounting Standards [IPSAS] since its adoption in 2016 except for full consolidation of its Subsidiaries, Associates and Joint Ventures as required by IPSAS 35; as a result, the Lagos State Government is not able to make an explicit statement of its full compliance with Accrual Basis IPSAS. The Financial Statements contained herein are therefore referred to as the Accrual IPSAS-based Financial Statements of Lagos State Government for the financial year ended 31st December, 2024.

M. J. Adetola

(Increase)/Decrease in Bond Sinking Fund	19,841,142
Increase in Receivables	(6,330,698)
Payment to Suppliers	254,650
Movement in payables	(56,495,868)
Movement in Public Funds	4,027,757
Parastatals opening cash balances	2,713,180
	207,290,402

The accounting policies and notes form an integral part of these financial statements. The budget and the financial statements are prepared on a different basis. The statement of comparison of budget and actual amounts above is prepared on the same basis as the budget.

STATE TREASURY OFFICE
 MINISTRY OF FINANCE
 THE SECRETARIAT
 ALAUSA -IKEJA, LAGOS

ABIODUN. S. MURITALA
 PERMANENT SECRETARY/ACCOUNTANT-GENERAL
 LAGOS STATE

Statement of Accounting Policies

1 General Information

Lagos State was created on May 27, 1967 by virtue of State (creation and transitional provisions) Decree no 14 of 1967, which restructured Nigeria's federation into 12 States and is located in the South-West of Nigeria, bounded in the north and east by Ogun State, in the west by the republic of Benin and in the south by the Atlantic ocean.

The coast line is about 200 kilometres long, and covers an area of about 358,862 hectares or 3,577 square km and represents about 0.4% of Nigeria's territorial land mass of 923,773 square km and it is a socio-cultural melting pot, making it a home to people across the globe.

Lagos State is a major economic centre of Nigeria and has become the 3rd largest megacity in Africa with a population of over 20 million, with a growth driven by vital reforms in the State Services such as Taxation, Transport, and Waste Management. Lagos State remains the economic and financial hub that is safe, secure, functional and productive through its potential to generate revenue.

The governance structure is currently under the Executive Leadership of Mr. Governor, Mr. Babajide Sanwo-Olu. The State House of Assembly is the legislative arm while the Lagos State Judiciary represents the third arm of government.

2 Legal Basis and Accounting Framework

The Financial Statements of the LASG have been prepared using the accrual basis in accordance with the requirements of International Public Sector Accounting Standards (IPSAS) and in accordance with Sections 13 and 14 of the Lagos State Public Finance Law 2011 while the Office of the Accountant General of Lagos State is empowered to choose the basis of reporting.

The accounting framework of the Lagos State Government (LASG) focuses on reporting the budgetary activities of the government for the financial year as laid down in the Appropriation Law.

3 Basis of Preparation

(a) Statement of Compliance

LASG adopted Accrual Basis IPSAS on 1st January 2016 and has consistently prepared its financial statements on this basis.

(b) LASG applies the following fundamental Accounting Concepts as the basis for preparation of its financial Statements:

- *Going Concern
- *Historical Cost
- *Materiality
- *Consistency
- *Matching
- *Periodicity
- *Relevance
- *Realisation etc.

(c) Basis of Measurement

The financial statements have been prepared on the basis of historical cost, unless stated otherwise.

The following statements are presented:

- *Statement of Financial Performance for the year ended 31st December 2024
- *Statement of Financial Position as at 31st December 2024
- *Cash Flow Statement for the year ended 31st December 2024
- *Statement of Changes in Net Assets for the year ended 31st December 2024
- *Statement of Comparison of Budget and Actual information for the year ended 31st December 2024

(d) Functional and Presentation Currency

The financial statements are presented in Naira, which is the functional and reporting currency of LASG and all values are rounded to the nearest thousand (N'000).

Statement of Accounting Policies

(e) Going Concern

The financial statements have been prepared on a going concern basis.

4 Accounting Principles

The objective of the financial statements is to provide information about the financial position, performance and cash flows of LASG that is useful to a wide range of users. Being a public sector entity, the objectives were developed specifically to provide information useful for decision making, and also to demonstrate the level of LASG's accountability for the resources entrusted to it.

The key considerations and accounting principles to be followed when preparing the financial statements are those laid out in LASG's Financial Regulations and Public Finance Management Law (2011) and those described in IPSAS 1. This includes: fair presentation, accrual basis, going concern, consistency of presentation, aggregation, offsetting and comparative information.

Preparation of the financial statements in accordance with the above mentioned rules and principles requires management to make estimates that affect the reported amounts of certain items in the Statement of financial position and Statement of financial performance (economic outturn account), as well as the related disclosures.

5 Accounting Periods

The accounting year is from 1st January to 31st December.

6 Summary of Significant Accounting Policies

LASG has applied the following accounting policies in preparation of the financial statements for the year ended 31 December 2024. These policies have been consistently applied to all the years presented, unless otherwise stated.

6.1 Revenue

Revenue includes only the gross inflow of economic benefits or service potential received or is receivable by the entity on its own account. Those amounts collected as an agent of the government or on behalf of third parties are not considered as revenue. Revenue is measured at the fair value of the consideration received or receivable.

6.1.1 Revenue from Non-exchange Transactions

These are transactions in which LASG receives value from, without directly giving appropriately equal value in exchange. This includes mainly direct and indirect taxes. In addition to taxes, LASG also receives payments from other parties, such as transfers, grants, fines and donations.

(a) Taxes Receipts

Taxes are economic benefits or service potential compulsorily paid or payable to LASG, in accordance with laws and/or regulations, established to provide revenue to the Government. Taxes do not include fines or other penalties imposed for breach of the law. LASG recognises revenue from taxes by reference to the earning of assessable income by the taxpayers. Taxes are measured at the fair value of the consideration received or receivable to Lagos State Inland Revenue Service. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. LASG taxes include: Pay-As-You-Earn, Tax on Contract, Withholding Tax, Entertainment Tax, Capital Gain Tax, Stamp Duties, Development Levy, Property Tax, Business Premises and other tax receipts.

(b) Levies, Fees and Fines

These are inflows of future economic benefits or service potentials from non-exchange transactions other than taxes. They are economic benefits or service potential received or receivable by LASG, as determined by Lagos State laws or by a court and other law enforcement bodies, as a consequence of the breach of laws or regulations and are recognised at the point when the levy is being imposed.

Statement of Accounting Policies

(c) Statutory Allocation

Statutory allocation is income from the revenue allocation system wherein funds are allocated to each federating unit from the Federation Account based on certain predetermined criteria. Statutory allocation is measured at fair value and recognised at point of receipt.

(d) Capital Receipts

These include grants and other capital receipts. Capital receipts are measured at fair value or when there is an enforceable claim to receive the asset if it is free from conditions. Capital receipts are recognised when it is probable that the economic benefits or service potential related to the asset will flow to LASG and can be measured reliably.

(e) Other Revenue from Non-exchange Transactions

These represent revenue from Lottery Board and recovered funds. Revenue from Lottery Board is received from lottery and bet operators in the State. This is recognised at the fair value of the consideration received or receivable.

6.1.2 Revenue from Exchange Transactions

These are transactions in which LASG receives consideration from, and directly gives approximately equal value in exchange for goods, services or use of assets. They are recognised at fair value of consideration received or receivable. LASG revenue from exchange transactions include: Private Sector Developer Programme, Lekki-Ikoyi toll revenue, rent on LASG properties, proceeds from hospital units and other miscellaneous revenue from exchange transactions.

Revenue from the sale of goods and services is recognised when the significant risk and rewards of ownership of the goods are transferred to the buyer. This is when the goods have been delivered and when the revenue can be measured reliably and it is probable that the economic benefits or service potential associated with the transaction will flow to LASG.

Revenue involving the provision of services is recognised by reference to the stage of completion of the transaction at the reporting date.

Revenue arising from the use by others of LASG's assets yielding rental income, interest, royalties and dividends or similar distributions, are recognised as they are earned in accordance with the substance of the relevant agreement. Revenue is recognised when the amount can be measured reliably, and it is probable that the economic benefits or service potential associated with the transaction will flow to LASG.

Where the contract outcome cannot be measured reliably, revenue is recognised only to the extent that the expenses incurred are recoverable.

(a) Rental Income

Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms and included in revenue.

(b) Revenue from Other Services

Revenue from other services include proceeds from Private Sector Developer Programme, Lekki-Ikoyi toll revenue, proceeds from hospital units and other miscellaneous revenue from exchange transactions. LASG recognises revenue from rendering of services as it is earned, that is, as the services is provided. It is measured at the fair value of the consideration received or receivable.

(c) Investment Income

Investment income consists of dividend income. Dividend income or similar distributions are recognised when LASG's right to receive payment is established.

Statement of Accounting Policies

6.2 Public Debt Charge

Interest cost is calculated using the Effective Interest Rate Method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income / cost for each period.

6.3 Cash and Cash Equivalent

Cash and cash equivalents as shown in the statement of financial position comprises cash-in-hand or bank, deposit held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

6.4 Inventory

Inventories are stated at the lower of cost, current replacement cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less any applicable completion and selling expenses. When inventories are held for distribution at no charge or for a nominal charge, they are measured at the lower of cost and current replacement cost. Current replacement cost is the cost the LASG would incur to acquire the asset on the reporting date.

The cost of finished goods and work in progress is determined using the first-in, first-out (FIFO) method and comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity), incurred in bringing inventory to its present location and condition but excludes borrowing costs.

6.5 Financial Instrument

A financial instrument is any contract that gives rise to both a financial asset of one entity and a financial liability or equity instrument of another entity. LASG classifies its financial assets in the following categories: at fair value through surplus or deficit, held to maturity, loans and receivables, and available for sale. The classification depends on the purpose for which the financial assets were acquired.

LASG classifies its financial liabilities at fair value through surplus or deficit and at amortised cost. Classification of financial liabilities is based on the nature or characteristic of the instrument. The Office of the Accountant General determines the classification of its financial assets and liabilities at initial recognition.

6.5.1 Classification

(a) Financial Assets and Liabilities at Fair Value through Surplus or Deficit

Financial assets or liabilities at fair value through surplus or deficit are financial assets or liabilities held for trading. A financial asset or liability is classified in this category if: acquired principally for the purpose of selling or repurchasing in the short term; or on initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent pattern of short-term profit taking. Assets in this category are classified as current assets if expected to be realised within twelve months; otherwise, they are classified as non-current assets.

(b) Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than twelve months after the end of the reporting period. These are classified as non-current assets. LASG's loans and receivables comprise 'receivables from exchange transactions', 'recoverable from non-exchange transactions', 'other receivables' and 'cash and cash equivalents' and are presented in the statement of financial position.

Statement of Accounting Policies

(c) Available-for-sale Investments

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or LASG intends to dispose of it within 12 months of the end of the reporting period. LASG has recognised some of its quoted and unquoted investments as well as managed funds as available-for-sale Investment.

(d) Financial Liabilities at Amortised Cost

Financial Liabilities at amortised cost include Payables, Other Liabilities and Debts.

6.5.2 Categories and Measurement

(a) Financial Asset or Financial Liability at Fair Value through Surplus or Deficit

Financial instruments in this category are measured at fair value on both initial recognition and subsequently. Transaction costs are expensed in the statement of financial performance. Surplus and deficit arising from changes in fair value are presented in the statement of financial performance within “other surplus and deficit (net)” in the period in which they arise. Non-derivative financial assets and liabilities at fair value through surplus or deficit are classified as current except for the portion expected to be realised or paid beyond twelve months of the reporting date, which are classified as long-term.

(b) Loans and Receivables

Loans and receivables are initially recognised at fair value less transaction costs. Subsequently, loans and receivables are measured at amortised cost using the effective interest method less a provision for impairment.

(c) Available-for-sale Investments

Available-for-sale investments are recognised initially at fair value plus transaction costs and are subsequently carried at fair value. A gain or loss on an available-for-sale financial asset shall be recognised directly in net assets through the Statement of changes in net assets, except for impairment losses and foreign exchange gains and losses, until the financial asset is derecognised, at which time the cumulative gain or loss previously recognised in net assets shall be recognised in surplus or deficit. On the other hand, interest calculated using the effective interest method is recognised in surplus or deficit. Available-for-sale investments are classified as non-current asset, unless an investment matures within twelve months, or the directors expect to dispose of it within twelve months.

(d) Financial Liabilities at Amortised Cost

Financial liabilities measured at amortised cost are recognised initially at fair value, net of any transaction costs incurred, and subsequently at amortised cost using the effective interest method. These are classified as current liabilities if payment is due within twelve months. Otherwise, they are presented as non-current liabilities.

6.5.3 Recognition and De-recognition

Financial instruments are recognised when LASG becomes a party to the contractual provisions of the instrument. Planned future transactions, no matter how likely their occurrence may be, are not assets and liabilities because the entity has not become a party to a contract.

Financial assets are derecognised when the rights to receive cash flows from the assets have expired or have been transferred and LASG has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expires.

6.5.4 Reclassification

LASG may choose to reclassify a non-derivative trading financial asset out of the held for trading category if the financial asset is no longer held for the purpose of selling it in the near term. Financial assets other than loans and receivables are permitted to be reclassified out of the held for trading category only in rare circumstances arising from a single event that is unusual and highly unlikely to recur in the near term.

Reclassifications are made at fair value as of the reclassification date. Fair value becomes the new cost or amortised cost as applicable, and no reversals of fair value gains or losses recorded before reclassification date are subsequently made.

Statement of Accounting Policies

6.5.5 Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business.

6.5.6 Impairment of Financial Assets

LASG assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets are impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate.

The carrying amount of the asset is reduced and the amount of the loss is recognised in the statement of financial performance. If a loan or held-to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

As a practical expedient, LASG may measure impairment on the basis of an instrument's fair value using an observable market price. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the statement of financial performance.

6.5.7 Financial Instruments Denominated in Foreign Currencies

These are financial instruments denominated in a currency other than the functional currency that results in the contractual right to collect, or contractual obligation to deliver cash in foreign currencies such as external loans where the amounts payable or receivable are denominated in a foreign currency.

Financial instruments denominated in a foreign currency are initially recognised in the functional currency, by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. At each subsequent reporting date, these financial instruments are translated using the closing rate.

Statement of Accounting Policies

6.6 Property, Plant and Equipment (PPE)

LASG performed an asset verification exercise in order to determine the deemed cost of some PPE items as at the date of adoption of IPSAS. Recognition of PPE items will be on a class by class basis.

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition or construction of the asset. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits or the service potentials, associated with the item will flow to LASG and its cost can be measured reliably.

Repairs and maintenance costs are charged to the statement of financial performance during the financial period in which they are incurred.

Finance costs attributable to amounts borrowed by LASG to fund the acquisition of property, plant and equipment are expensed immediately they are incurred.

Assets under construction are not depreciated as these assets are not yet available for use. Depreciation on other assets is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives.

6.6.1 Depreciation Rates

The following standard rates shall be applied to all LASG Assets:

Item	Depreciation Rate
Land	N/A
Building	2%
Constructed Asset*	2%-10%
Heritage Asset	N/A
Capital Work in Progress	N/A
Plant and Machinery	5%
Motor Vehicle	25%
Biological Asset	10%-50%
Computer Office & Equipment	25%
Intangible Asset	25%
Concession Asset	5%
Leased Asset	10%
Furniture and Fitting	10%

*The following depreciation rates were used for constructed assets: bridges: 2%; roads: 5%; traffic lights: 5%; street lights: 10%; drainages: 5%.

Gains or losses on disposals are determined by comparing proceeds less selling expenses with the carrying amount of the disposed asset and are included in the Statement of financial performance.

6.7 Public Debt Charge

Public debt charges are interest and other expenses incurred by LASG in connection with the borrowing of funds for qualifying assets. LASG has adopted the benchmark treatment, under which public debt charges are recognised as an expense in the period in which they are incurred, regardless of how the debts are applied.

Statement of Accounting Policies

6.8 Impairment of Non-financial Asset

Impairment is defined as a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation.

LASG assesses whether there is any indication that an asset may be impaired at each reporting date. If any such indication exists, LASG will estimate the recoverable amount of the asset. For intangible assets, irrespective of whether there is any indication of impairment, LASG will test its intangible asset with an indefinite useful life or an intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. If there is an indication that an asset may be impaired, this may indicate that the remaining useful life, the depreciation (amortisation) method, or the residual value for the asset needs to be reviewed and adjusted in accordance with the standard applicable to the asset. If the reasons for impairments recognised in previous years no longer apply, the impairment losses are reversed accordingly.

Recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. Impairment loss is recognised when the recoverable amount of an asset is less than its carrying amount. The carrying amount of the asset shall be reduced to its recoverable amount. An impairment loss shall be recognised immediately in surplus or deficit.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset shall be adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Cash-generating Units

A cash-generating unit is the smallest identifiable group of assets held with the primary objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets. Identification of an asset's cash-generating unit involves judgment. If recoverable amount cannot be determined for an individual asset, LASG will determine the recoverable amount of the cash-generating unit to which the asset belongs (the asset's cash-generating unit).

6.9 Employee Benefits

(a) Short term employee benefits

LASG accrues for the following short term benefits in the period in which the associated services are rendered by its employees: salaries; wages; paid annual leave; short term compensated absence and short-term performance bonuses. LASG recognises short term employee benefits costs when employees render services in exchange for these benefits to the extent that the benefits are not yet paid at the reporting date.

b) Defined Benefit Plan

LASG operated a defined benefit pension plan up to 31st March 2007. The liability recognised in the statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the Statement of financial position date. The defined benefit obligation is calculated by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised immediately in the surplus or deficit. Past-service costs are recognised immediately in the surplus or deficit, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period), in which case, the past-service costs are amortised on a straight-line basis over the vesting period. A provision of 5% on gross salaries is made monthly into a sinking fund managed by the Lagos State Pension Commission for the eventual payment of this liability.

Statement of Accounting Policies

(c) Defined Contribution Plan

LASG operates a defined contribution pension scheme for members of staff which is independent of its finances and is managed by pension fund administrators. The Scheme is funded by 7.5% contribution from employees and 7.5% contribution from the employer. The new rate of 8% contribution by employees and 10% contribution by employers in accordance with the amended pension reform law of 22nd february,2019 took effect from January 2020. LASG has no further payment obligations once the contributions have been paid. Contribution payable is recorded as an expense under 'staff costs' while unpaid contributions are recorded as a liability. No actuarial computation is required because LASG does not bear any risk in respect of the plan.

d) Other Long Term Employment Benefits

These are all employee benefits other than post employment benefits and termination benefits. The amount recognised as the liability is the net total at the end of the reporting period of the present value of the defined benefit obligation. The net total of the service cost, net interest and re-measurement of the defined benefit liability are recognised in the statement of financial performance.

7 Foreign Currency Transactions

Items included in the financial statements of each of LASG's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Nigerian Naira (NGN), which is LASG's functional and presentation currency. Foreign currency transactions throughout the year are converted into Nigerian Naira at the ruling Central Bank of Nigeria (CBN) rate of exchange at the dates of the transactions. Foreign currency balances as at the year-end are valued at the exchange rates prevailing at that date.

Monetary assets and liabilities denominated in foreign currencies are translated into Nigerian Naira on the basis of the exchange rates applicable at the reporting period. Foreign exchange gains and losses that relate to debts are presented within the finance cost in the statement of financial performance. All other foreign exchange gains and losses are presented in the statement of financial performance on a net basis within other income or other expenses.

Non-monetary items that are measured at fair value in foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

8 Significant Accounting Judgments, Estimates and Assumptions

8.1 Contingent Assets

A contingent asset is a possible asset that arises from past events and of which the existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of LASG. A contingent asset is disclosed when an inflow of economic benefits or service potential is probable.

8.2 Contingent Liabilities

A contingent liability is a possible obligation that arises from past events and of which the existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the LASG, or a present obligation that arises from past events but is not recognised because:

- it is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation or,
- the amount of the obligation cannot be measured with sufficient reliability.

The preparation of LASG's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Statement of Accounting Policies

8.3 Estimation and Assumption

The preparation of financial statements in conformity with IPSAS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying LASG's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed herein.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. LASG makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results.

8.4 Fair Value Estimation

Where the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be derived from active markets, their fair value is determined using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, judgment is required in establishing fair values. Judgment includes the consideration of inputs such as liquidity risk, credit risk, financial risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

8.5 Recoverable from Non-exchange Transactions

A recoverable is recognised when revenue is earned but cash or its equivalent is yet to be received. In accordance with revenue recognition criteria, LASG has measured its recoverables arising from tax receipts by using statistical model based on the history of collecting the particular tax in prior periods.

8.6 Employee Benefit Obligation

The cost of the defined benefit pension plan, long service awards, gratuity scheme and post-employment medical benefits and the present value of these defined benefit obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

8.7 Depreciation and Carrying Amount of Property, Plant and Equipment

The estimation of the useful lives of PPE is based on the state's accounting policy. Any material adjustment to the estimated useful lives of items of property, plant and equipment will have an impact on their carrying value.

Statement of Accounting Policies

8.8 Finance Lease

Leases of property, plant and equipment where LASG, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the balance outstanding.

The corresponding rental obligations, net of finance charges, are included in long term liabilities if the tenure is more than one year. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Property, plant and equipment acquired under finance leases are depreciated on a straight-line basis over the asset's useful life or over the shorter of the asset's useful life and the lease term.

Public Fund Closing Balance	5,395,363	1,367,607
Public Fund Opening Balance	(1,367,607)	(428,026)
	4,027,757	939,581

34 Public Debt

	31-Dec-24 N'000	31-Dec-23 N'000
i Bond Issues	366,902,486	393,573,726
Internal Loans	475,563,169	580,646,597
External Loans	1,961,782,255	1,128,996,152
	2,804,247,909	2,103,216,475
ii Current		
Bond Issues	36,633,623	27,388,246
Internal Loans	129,098,936	140,934,650
External Loans	73,462,328	43,884,199
	239,194,888	212,207,096
iii Non-current		
Bond Issues	330,268,863	366,185,479
Internal Loans	346,464,233	439,711,947
External Loans	1,888,319,926	1,085,111,953
	2,565,053,022	1,891,009,379

Public debt consist of bond issues, internal and external loans. Internal loans consist of fifty-four (54) loan facilities from various local banks with total amortised principal of 476 billion naira and interest rates ranging from 19%-24% per annum and include facilities from the Central Bank of Nigeria Differentiated Cash Reserve Requirement (DCRR) which was used to finance the Blue and Red rail Project. The external loan includes twenty-eight (28) loan facilities for various projects repayable in foreign currencies. The outstanding principal of the foreign loans sum up to about 1.277 billion dollars, with tenor between 20 to 40 years and moratorium between 5 to 13 years.

Lagos State Government has loan balances running from 1989 (35 year tenor) to the most recent signed in 2024. Interest rates on foreign loans range between 0.75% to 2.37%. Lagos State Government complied with the financial instruction of its borrowing facilities by issuing monthly Irrevocable Standing Payment Orders (ISPO) which served as security for the loans. The loans are measured at amortised cost using the effective interest method. All foreign loans have been translated to Naira using the prevailing exchange rates at the reporting date.

LASG had five bond programmes with nominal and amortised cost balance of N370 billion and 366 billion respectively as at 31 December 2024 ,with coupon rate ranging from 12.25% to 17.25% and maturity dates ranging from 2027 to 2033. LASG has also set aside managed funds which is used to make payments on the bond liabilities as they fall due. Bond liabilities are classified as held to maturity and measured at amortised cost. LASG guaranteed some of its projects financed by Contractors with borrowed funds from Banks.

35 Finance Lease Obligations

	31-Dec-24 N'000	31-Dec-23 N'000
i Commitments in relation to Finance Leases are Payable as follows:		
Within one year	4,613,114	4,757,611
Later than one year but not later than five years	23,065,571	23,065,571
Later than five years	4,286,064	8,899,178
Minimum Lease Payments	31,964,750	36,722,361
Future Finance Charges	(12,178,991)	(15,179,950)
Total lease liabilities	19,785,758	21,542,410

Lagos State Government
Financial Statements
For the year ended 31st December 2024

Notes to the Financial Statements

ii The present value of Finance Lease Liabilities is as follows:

Within one year	4,270,203	4,401,103
Later than one year but not later than five years	14,199,109	14,199,109
Later than five years	1,316,446	2,942,199
Minimum Lease Payments	19,785,758	21,542,410

iii Lease Rental Payments

Alausa Power Plant	-	49,185
Mainland Power Plant	144,497	44,672
PIPP Genco Power Plant	-	-
Viathan Engineering	3,600,000	2,312,624
Alausa Power Plant (New)	1,013,114	217,847
	4,757,611	2,624,328

LASG entered into lease agreements with the following five independent power generation companies: Akute Power Limited, Island Power Limited, Alausa Power Limited, Mainland Power Limited and PIPP LVI Genco Limited. Each of the lease agreements is for a minimum lease term of ten years. Some of the lease agreements have expired :- Akute (2020) and Island (2021).

The power generation companies are to build and operate the power plants with a minimum of 97% guaranteed availability for LASG. The leases are treated as finance leases, and LASG, the lessee. The power plants are recognized as leased assets under property, plant and equipment (PPE). LASG entered into no new lease agreements during the year.

36 Retirement Benefit Obligations

The Lagos State Government has recognised liabilities of gratuities due to its employees. These gratuities were based on valuations performed by Alexander Forbes Consulting Actuaries Nigeria Limited as at 31st December 2024, using a Projected Unit Method, prescribed by IPSAS 39.

The assumptions used in the valuation are set out below:

Plan assets are valued at current market value as at 31st December 2024 in line with IPSAS 39. The plan assets are creditor remote, meaning should the State Government go insolvent, its creditors would not be able to access these assets held to back the post-employment retirement benefit liability.

Developments since the previous Valuation

With effect from 31st March 2007, the State Government migrated its staff from the defined benefit plan to a defined contributory scheme. However, eligible staff members who had retired by 31 March 2007 continue to enjoy pension for life while staff members in active service at the date of migration are entitled to accrued benefits under the defined benefit plan as at 31st March 2007. The amount is payable whenever the employee leaves the employment of the State Government.

Liability recognised in the Statement of Financial Position is as follows:

	31-Dec-24 N'000	31-Dec-23 N'000
Defined Benefit Obligation	(20,858,448)	(31,658,973)
Assets at Fair Value	26,371,505	24,128,927
Deficit	5,513,057	(7,530,046)
Unrecognised due to limit*	-	-
(Liability)/Asset Recognised at end of year	5,513,057	(7,530,046)

*The limit ensures the asset to be recognised in the State government's statement of financial position is subject to a maximum of the present value of any economic benefits available to the State government in the form of refunds or reductions in future contributions.

Lagos State Government
Financial Statements
For the year ended 31st December 2024

Notes to the Financial Statements

Breakdown of the Defined Benefit Obligation (Pension)

	31-Dec-24 N'000	31-Dec-23 N'000
State Universal Basic Education Board (SUBEB)	(2,283,131)	(5,016,266)
Local Government	(1,467,439)	(1,725,979)
Core Civil Service	(8,747,464)	(13,143,423)
	(12,498,034)	(19,885,668)

Breakdown of the Defined Benefit Obligation (Gratuity)

	31-Dec-24 N'000	31-Dec-23 N'000
State Universal Basic Education Board (SUBEB)	(1,531,721)	(2,767,392)
Local Government	(1,109,779)	(1,285,476)
Core Civil Service	(5,718,914)	(7,720,437)
	(8,360,414)	(11,773,305)

Total Defined Benefit Obligation

	(20,858,448)	(31,658,973)
--	---------------------	---------------------

Components of Defined Benefit Cost

	31-Dec-24 N'000	31-Dec-23 N'000
Current Service Cost	-	-
Net interest on net Defined Benefit Liability	(81,319)	1,125,195
Past Service Cost	-	-
Expense/(Income) Recognised in Surplus or Deficit	(81,319)	1,125,195

Components of Net Interest on Net Defined Benefit Liability

	31-Dec-24 N'000	31-Dec-23 N'000
Interest Cost on Defined Benefit Obligation*	3,172,372	3,319,498
Interest Income on Assets**	(3,253,691)	(2,194,303)
Interest on Limit	-	-
Total Net Interest	(81,319)	1,125,195

Contributions and Benefit Payments

	31-Dec-24 N'000	31-Dec-23 N'000
Member Contributions	-	-
State Government Contributions	16,255,952	10,578,038
Benefit Payments	(16,665,412)	(12,181,353)
Total Cashflows	(409,460)	(1,603,315)

When interpreting the above, please note the following:

"Interest cost on defined benefit obligation" allows for actual benefit payments.

"Interest income on assets" allows for actual contributions and actual benefit payments.

Benefit payments for the year ending 31st December 2024 have been based on cash flow information provided by the State Government for the period 1st January 2024 to 31st December 2024.

Lagos State Government
Financial Statements
For the year ended 31st December 2024

Notes to the Financial Statements

A Reconciliation of Assets/ (Liability) Recognised in the Statement of Financial Position

	31-Dec-24 N'000	31-Dec-23 N'000
Liability at beginning of year	(7,530,046)	(14,588,148)
Net expense/Income recognised in surplus or deficit	81,319	(1,125,195)
Re-measurements recognised in statements of changes in net assets	(3,294,168)	(2,394,741)
State Government contributions to defined benefit plan	16,255,952	10,578,038
Liability at end of year	5,513,057	(7,530,046)

B Re-measurements Recognised in Statement of Changes in Net Assets

	31-Dec-24 N'000	31-Dec-23 N'000
Current year gain/ (losses)	(3,294,168)	(2,394,741)
Change in Paragraph 65 limit	nil	nil
Re-measurements recognised in Net Assets/Equity	(3,294,168)	(2,394,741)

C Reconciliation of Defined Benefit Obligation

	31-Dec-24 N'000	31-Dec-23 N'000
Defined Benefit Obligation at beginning of year	31,658,973	33,524,543
Service Cost	-	-
Interest Cost	3,172,372	3,319,498
Actuarial (Gain)/ Loss	2,692,515	6,996,285
Benefit Paid	(16,665,412)	(12,181,353)
Defined Benefit Obligation at end of year	20,858,448	31,658,973

The loss on the defined benefit obligation is largely as a result of change in economic assumptions, increase in benefits due and demographic experience being different than expected.

The above factors contributed to the net actuarial loss as follows:

	31-Dec-24 N'000	31-Dec-23 N'000
Change in economic assumptions	(1,593,120)	(550,242)
Change in benefits due	(5,437,363)	(2,102,547)
Demographic experience	9,722,998	9,649,074
	2,692,515	6,996,285

The accrued liability amounted to N 31,658,973,000 as at 31 December 2023. Assuming that all actuarial assumptions had borne out in practice, the expected accrued liability as at 31 December 2024 is N18,165,993,000. The accrued liability calculated in this valuation is N20,858,448,000 reflecting an unexpected loss of N2,692,515,000 as shown in the table above.

D Reconciliation of Fair Value of Plan Asset

	31-Dec-24 N'000	31-Dec-23 N'000
Assets at Fair Market Value as beginning of year	24,128,927	18,936,395
Expected Return on Assets	3,253,691	2,194,303
Member Contributions	-	-
Employer Contributions	16,255,952	10,578,038
Benefit Payments	(16,665,412)	(12,181,353)
Actuarial Gain/(Loss)*	(601,653)	4,601,544
Assets at Fair Market Value as at end of the year	26,371,505	24,128,927
Actual Return on Assets	2,652,038	6,795,847

*The net actuarial loss on the fair value of plan assets arose as a result of the actual returns on the assets being lower than the calculated interest income on assets.

Lagos State Government
Financial Statements
For the year ended 31st December 2024

Notes to the Financial Statements

E Estimated Asset Composition

The assets of the Lagos State Civil Service gratuity and pension fund were invested as follows:

	31-Dec-24	31-Dec-23
Cash	90%	89%
Equity	6%	6%
Bonds	4%	4%
Property	0%	1%
Total	100%	100%

Summary of Membership Data

i Active Members

	31-Dec-24	31-Dec-23
Number	29,704	32,598
Accrued Gratuity (N'ooo)	9,784,921	11,497,598
Accrued Pension (N'ooo)	10,323,302	13,569,879
Accrued Gratuity Weighted Average Age	55.4 years	55.1 years
Accrued Gratuity Weighted Past Service	28.2 years	27.6 years
Accrued Pension Weighted Average Age	57.6 years	57.2 years
Accrued Pension Weighted Past Service	30.3 years	29.7 years

These figures are based on membership data as at 31 December 2024.

ii Reconciliation of Changes in Membership

	SUBEB	Local government	Core civil service	Total
Membership at beginning of the year	9,024	6,696	16,878	32,598
Exits moved to benefits due	(661)	(341)	(1,533)	(2,535)
On payments schedule	(70)	(15)	(101)	(186)
Suspended moved to benefits due	(2)	-	(171)	(173)
Unreconciled	-	-	-	-
Movers	12	8	(20)	-
Membership at end of the year	8,303	6,348	15,053	29,704

Economic Assumptions

The economic assumptions used in this valuation are based on market information as at 31st December 2024.

Key Economic Assumptions(per annum)	Asset as at 31 December 2024 and Expense for the year ending 31 December 2025	Asset as at 31 December 2023 and Expense for the year ending 31 December 2024
Discount rate*	21%	14%
Benefit increase rate**	0%	0%

*The rate used to discount post-employment benefit obligations should be determined by reference to market yields at the balance sheet date on high quality corporate bonds. In countries where there is no deep market in such bonds, the market yields (at the balance sheet date) on government bonds should be used. In our opinion, there is no deep market in corporate bonds in Nigeria. We have set our discount rate with reference to the yields on Nigerian Government bonds with the nearest expected duration as compiled by the Financial Markets Dealers Quotation (FMDQ). In terms of the accounting standards historical yields are less important and we consequently consider it appropriate to use the discount rate of 20.6% per annum. The expected duration of the liabilities was calculated to be 1 year.

**We have not allowed for any benefit increases as advised by LASG.

Lagos State Government
Financial Statements
For the year ended 31st December 2024

Notes to the Financial Statements

Demographic Assumptions

The following demographic assumptions have been used in performing the valuation:

a. Mortality

Pre-retirement mortality tables :

Sample Age	Number of deaths per 1000 lives
25	11
30	12
35	13
40	19
45	33
50	60
55	104

b. Withdrawal and Retirement

It was assumed that withdrawals and retirements would be in accordance with the following table:

Age group	Annual rate of Withdrawal
18 – 29	20%
30 – 34	15%
35 – 39	10%
40 – 44	5%
45 – 49	1%
50 – 59	2%
60	100%

37 Notes to the Statement of Comparison of Budget and Actual

(a) The Lagos state government budget is approved on a cash basis by functional classification and covers the fiscal period from 1st January, 2024 to 31st December, 2024.

(b) The budget and the accounting basis of the LASG financial statements differ. The Lagos State Government financial statements are prepared on the accrual basis, using a classification based on the nature of expenses in the statement of financial performance while the budget is prepared and approved on a cash basis.

(c) The amounts in the financial statements were represented from the accrual basis to the cash basis as the final approved budget in the statement of comparison of budget and actual.

(d) A reconciliation between the actual amounts on a comparable basis as presented in the statement of comparison of budget and actual amounts and the actual amounts in the statement of cash flows for the year ended December 31st, 2024 is presented below.

There is no timing difference because the financial statements and budget documents are prepared for the same period. There is nil entity difference: the budget is prepared for the ministries, departments, agencies and parastatals, and the financial statements have not yet consolidated all entities controlled by the government, including commercial public sector enterprises. There is no basis difference as the actual amounts in the statement of comparison of budget and actual amounts and the actual amounts in the statement of cash flows for the year have been presented on a cash basis.

Lagos State Government
Financial Statements
For the year ended 31st December 2024

Notes to the Financial Statements

	Operating N'000	Investing N'000	Financing N'000	Net Cash Flow N'000
Actual amount on comparable basis as presented in the budget and actual comparative statement	1,294,533,210	(1,057,546,527)	(29,696,281)	207,290,402
Basis Differences				
Timing Differences				
Entity Differences				
Actual amount in the Statement of Cash Flows	1,294,533,210	(1,057,546,527)	(29,696,281)	207,290,402

(c) Reasons for variation between final budget and actual amount:

i Taxes

Actual tax revenue increased in 2024, achieving 138% of the budgeted target. This growth was driven by several government initiatives aimed at enhancing the State's Internally Generated Revenue (IGR). Key measures included incentives for property owners, such as waivers on penalty fees for building permits. Additionally, extensive advocacy programs and public sensitization efforts contributed to greater taxpayer compliance, resulting in higher tax revenue compared to the previous year.

ii Other internally generated revenue

Realisation of receipt from licenses, penalties, fines, fees, levies and other internally generated revenue, dropped against the budgeted amount due to the reduction in general activities within the economic environment and citizen's inability to fulfil their obligations.

iii Dedicated revenue

Dedicated revenue generation by MDAs was adversely affected by business cycle contraction which resulted in a general slowdown in economic activities and as such reduced their revenue generating capacity.

iv Investment income

The performance of investment income was 86% of the budgeted figure which can be attributed to Dividend Income received from some strategic investment of the State.

v Federal transfer

Federal transfer to the State Government increased by over 133% when compared to the prior year. This increase in federal transfer was as a result of the subsidy removal on domestic fuel consumption and other transfers. The increase in federal transfer received exceeded the budgetary provision by 29%.

vi Debt charges

The increase in expenditure on debt charges during the year was mainly as a result of the following: devaluation of the naira, increase in monetary policy rate (MPR) during the year, and coupon payment to bond holders. The payment was made from the sinking fund investment.

vii Personnel, overhead cost and dedicated expenditure

LASG implemented the new minimum wage for its Staff in the year 2024 and paid arrears for 3 months and this has a resultant effect on the Personnel Cost expenditure. Generally, inflation affected the cost of some Government contracts which necessitated an upward review of some of the contracts.

viii Capital expenditure

The capital expenditure performance in the year was 76% when compared with budgeted amount.

Lagos State Government
Financial Statements
For the year ended 31st December 2024

Notes to the Financial Statements

38 Purchase and Construction of Assets

	31-Dec-24 N'000	31-Dec-23 N'000
